EDUCATION

- **B.Tech in Computer Science**, VIT Bhopal University — CGPA 8.52/10.00 — Aug 2023-Ongoing
- **Class XII**, Christu Jyoti Convent School , Ujjain — 82.4 % — May 2023
- **Class X**, Christu Jyoti Convent School , Ujjain — 85.8 % — Apr 2021

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Data Science Professional | Oracle — Sep 2025
- Ethnus MERN Fullstack | Ethnus — July 2025
- Azure Data Fundamentals DP-900 | Microsoft — June 2025
- Introduction to Machine Learning | NPTEL — April 2025
- GitHub Foundations | Github — Jan 2025

SKILLS

Technical Skills: Languages: Python, C++ , JavaScript , SQL , HTML5, CSS3 **Frameworks & Libraries:** React.js, Node.js, Express.js, TensorFlow, NumPy, Pandas, Matplotlib, OpenCV **Databases:** MongoDB, MySQL **Developer Tools & Platforms:** Git, GitHub, Docker, Microsoft Azure, Power BI, Figma

WORK EXPERIENCE

1 **Project Admin & Open Source Contributor | GirlScript Summer of Code (GSSOC) | May 2024 – Aug 2024 | Remote**
- Achieved a top 7% rank (#64/1000+) by developing and contributing to full-stack open-source projects using React.js, Node.js
- Mentored 100+ junior contributors by reviewing code, improving documentation, and enforcing best practices.

2 **Tech Team Lead, Blockchain Club VITB | Oct 2024 – Present | Bhopal, Madhya Pradesh**
- Led the development of secure web applications for club projects and events with React.js and Ether.js
- Coordinated the project lifecycle, delegating tasks and managing timelines for the club's technical initiatives.

PROJECTS

1 **Samvidhan Path | *ReactJS, NodeJS, ExpressJS, TailwindCSS* | *Frontend & Backend Developer* | samvidhan-path.vercel.app**
- Developed a full-stack educational web app using ReactJS for a dynamic, component-based frontend.
- Engineered a NodeJS and Express.js backend, implementing RESTful APIs to manage and serve constitutional data.
- Styled a responsive, high-performance UI with TailwindCSS, collaborating in a team of 5 to ensure cross-browser compatibility.

2 **Vasudha (SIH '25 Runner Up) | React.js, Node.js, Blockchain, AI, Mobile App | Vasudha-dahd.app**
- Architected a national-level digital ecosystem for AMU & MRL monitoring, securing 1st Runner Up at Smart India Hackathon 2025..
- Engineered a Smart MRL Engine to calculate drug withdrawal periods and enforce digital locks on non-compliant sales
- Integrated Blockchain traceability across 6 stakeholders to create immutable records, linking prescriptions to retail dispensing.

3 **Smart Flow Traffic Management | *Python, OpenCV, Flask, React.js* | *ML Model Development* | *Smartflow-traffic-management***
- Engineered an AI traffic system using OpenCV and Python to perform real-time video analysis and vehicle tracking.
- Designed and trained a TensorFlow (or Scikit-learn) prediction model to accurately forecast traffic flow patterns.
- Constructed a full-stack monitoring dashboard with a Flask API and a React.js frontend to visualize live traffic data.

CO-CURRICULARS

- Demonstrated strong problem-solving and Data Structures & Algorithms (DSA) proficiency by solving 600+ LeetCode problems (1453 Rating), achieving a 1488 rating on CodeStudio, and making 2300+ GitHub contributions.
- Engineered a production-ready solution for a Government Ministry as a **Smart India Hackathon 2025 National Finalist**, utilizing rapid prototyping to address complex real-life challenges.

EXTRA-CURRICULARS AND ACHIEVEMENTS

Achievements
- Achieved Rank #64/3000+ in GirlScript Summer of Code (GSSoC) 2024 as a top open-source contributor.
- Served as Project Admin for Social Winter of Code (SWoC) 2025, leading open-source teams and guiding junior developers.

Responsibilities
- Tech Team Lead for the Blockchain Club VITB, directing technical projects and member upskilling in web3 technologies.
- Co-led the Technical team of the Cyber Warriors Club and E-Cell, VIT Bhopal.

Extracurricular
- Achieved Diamond League in Google Cloud Skill Boost with 13,900 points; completed 162 labs, 31 quizzes, 28 courses, and 15 games, demonstrating advanced cloud skills.
