PROFESSIONAL SUMMARY

Full-Stack Developer and AI/ML Engineer fresher (B.Tech CSE, VIT Bhopal, CGPA: 8.70) skilled in building scalable, production-grade web applications and intelligent systems using React.js, Node.js, Python, TensorFlow, and OpenCV. Experienced in RESTful API design, Data Science, system design, DBMS and Agile/Scrum workflows across 15+ real-world projects with end-to-end ownership from architecture to deployment. Published Patent holder (Indian Patent Office) and Smart India Hackathon 2025 National Runner-Up. Solved 750+ LeetCode problems (Rating: 1376) with strong DSA fundamentals.

WORK EXPERIENCE

Project Admin | GirlScript Summer of Code (GSSoC) 2026

May 2026 – Aug 2026 | Remote

- Ranked #8 globally (S Tier, Top 1%) among 43,587 participants across all roles (contributors, PAs, mentors), with a leaderboard score of 47,990; managed a web development repository with 510 contributors and 2,373 merged PRs.
- Led end-to-end project administration including contributor onboarding, issue triaging, code reviews, and PR quality enforcement across a high-traffic open-source repository.

Tech Team Lead, Blockchain Club, VIT Bhopal

Oct 2024 – Present | Bhopal, MP

- Built and deployed 2 production web applications using React.js and Next.js with CI/CD pipelines on Vercel, cutting deployment time from 15 minutes to under 5.
- Led a 10-member Agile team through sprint planning, code reviews, and architectural decisions for Blockchain applications; delivered 3 production-ready projects within deadline.

PROJECTS

1. Vasudha (SIH '25 Runner Up) | React.js, Node.js, Blockchain, AI, Mobile App | Vasudha-dahd.app

- Architected a national-level full-stack platform for 6 stakeholders to manage AMU & MRL monitoring, securing Smart India Hackathon 2025 National Runner-Up among 1200+ teams.
- Developed a Smart MRL Engine with blockchain-based traceability, automating drug withdrawal calculations and enabling immutable prescription-to-retail tracking.

2. Smart Flow Traffic Management (Published Patent) | Python, OpenCV | ML Model Development | Github

- Engineered an AI-powered traffic management system using Python, OpenCV, and TensorFlow, achieving 92%+ vehicle detection accuracy with sub-200 ms inference latency for multi-lane monitoring.
- Built a traffic flow prediction model and a Flask + React.js dashboard for real-time visualization, improving lane clearance prediction accuracy by 30% over baseline methods.

3. GitHub Readme Tech | Next.js, Node.js, Express.js, TailwindCSS | Full-Stack Developer | github-readme.tech

- Built and deployed a full-stack SaaS web application using Next.js and TailwindCSS, enabling developers to generate customised, production-ready GitHub README files; scaled to 400+ active users.
- Built a reusable, component-based templating system for dynamic README generation, optimising performance and reducing creation time.

TECHNICAL SKILLS

- Languages:** Python, C++, Java, JavaScript, SQL, HTML5, CSS3
- Frameworks & Libraries:** React.js, Next.js, Node.js, Express.js, TensorFlow, NumPy, Pandas, OpenCV
- Databases:** MongoDB, MySQL
- DevOps & Cloud:** Git, GitHub, Microsoft Azure, AWS, Vercel, CI/CD
- Core CS & Concepts:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, System Design, Design Patterns, REST APIs, Microservices, OAuth, Unit Testing, SDLC

CERTIFICATIONS

AWS Certified Cloud Practitioner | AWS

May 2026

Oracle Cloud Infrastructure 2025 Data Science Professional | Oracle

Sep 2025

Ethnus MERN Fullstack | Ethnus

Jul 2025

Azure Data Fundamentals (DP-900) | Microsoft

Jun 2025

EDUCATION

B.Tech in Computer Science – VIT Bhopal University

CGPA: 8.70 / 10.00 | Aug 2023 – Present

Class XII – Christu Jyoti Convent School (CBSE), Ujjain

82.4% | May 2023

Class X – Christu Jyoti Convent School (CBSE), Ujjain

85.8% | Apr 2021

COMPETITIVE PROGRAMMING & OPEN SOURCE

- Solved 750+ problems on LeetCode (Rating: 1376) and Codeforces (Rating: 847) with proficiency in Data Structures & Algorithms; 4500+ GitHub contributions across personal and open-source projects.
- GirlScript Summer of Code (GSSoC) - Ranked #1 as Project Admin in 2026 (43,587 participants); contributed as open-source developer in GSSoC 2024 and Hacktoberfest, merging full-stack features across React.js and Node.js repositories.

ACHIEVEMENTS

- Secured a Published Patent (Indian Patent Office) for “A Smart System to Prioritize Lanes to Manage Traffic at Intersection”, an AI-driven real-time computer vision system for dynamic lane prioritization.
- Smart India Hackathon 2025 National Runner-Up; created a production-ready full-stack solution for a Government Ministry, competing against 1000+ teams nationwide.
- Completed two-week industrial immersion across Bangalore and Chennai tech hubs and a ServiceNow Virtual Internship, gaining exposure to enterprise-scale Agile workflows and production engineering practices.
